Shropshire Community Health NHS Trust

SCHT does not receive a threshold set by the Department of Health but usually has a threshold set by the local CCGs. Thresholds for 2023-24 are for no more than one case of *Clostridium difficile* infection (CDI) detected 3 or more days after admission in the community hospitals. The zero tolerance for MRSA bacteraemia continues. *E.coli* , *Pseudomonas Aeruginosa and Klebsiella spp* bacteraemias have a threshold of one each and MSSA, CPE and VRE are recorded but currently there is no threshold.
