

Safe Care Shropshire - List of Speakers

Welcome & Introduction (Chair)

Mrs Linda Izquierdo

**Director of Nursing, Quality and Patient Experience
Shropshire Clinical Commissioning Group**

Linda is a graduate Registered General Nurse by profession with extensive clinical, managerial and health care commissioning experience in a variety of specialties and settings in secondary and primary care and the voluntary sector. She has held a number of senior management and leadership roles during her career within the NHS, including Lead Nurse for Medicine, Head of Professional Development, Directorate Manager of Emergency Services and Senior Commissioning Manager for Acute and Community Contracts.

In her role as Director of Nursing, Quality and Patient Experience, Linda is responsible for patient safety, experience, safeguarding, infection prevention and control and Continuing Health Care for Shropshire. Linda's role is to ensure commissioning for quality within the resources available is delivered through the changing NHS architecture. This is done by working with providers, local authorities and the voluntary sector, patients and service users to ensure the best quality, safety, patient experience and clinical outcomes are at the heart of locally commissioned services.

Key Note Speaker

Mrs Elaine Inglesby-Burke

Executive Nurse Director, Salford Royal NHS Trust

Elaine joined the Salford Royal NHS Foundation Trust in April 2004. She has held Executive Nurse Director positions since 1996 in both specialist and large acute Trust's. Elaine qualified as a Registered Nurse in 1980 at Warrington District General Hospital and specialised in critical care and general medicine. She has held various clinical positions at ward level and nurse specialist.

Educated to postgraduate degree level, Elaine maintains her professional/ clinical development by regular clinical shifts and Executive safety shifts with frontline staff. She is a Florence Nightingale Leadership Scholar and took the opportunity to undertake a women's leadership programme for global executives at Harvard University, as well as the Executive Quality Academy at the Institute of Healthcare Improvement, Boston. She has a strong track record in professional nursing and operational management. Elaine is the Executive Lead for Nursing, Governance, Patient Safety and Quality Improvement, and the Division of Salford Healthcare.

Falls Prevention

Professor Tony Elliott
Clinical Director for Dementia & Consultant Psychiatrist,
South Staffordshire and Shropshire Healthcare NHS Trust
(SSSFT)

Professor Elliott has been a Consultant Old Age Psychiatrist at the South Staffordshire and Shropshire Mental Health NHS Foundation Trust for the past 18 years.

He currently is responsible for the inpatient dementia services at the Redwoods Centre. He is a Chairman in Older People's Mental Health at Chester University and was a Teaching Fellow at the NHS Institute for Innovation and Improvement. In addition, he is a National Advisor to the Parliamentary and Health Service Ombudsman on Old Age Psychiatry. Professor Elliott's interests are in Patient Safety and Service Development and he has led the implementation of the Prevention of Falls Causing Harm Pilot within the Dementia Inpatient Units of SSSFT.

Catheter Associated Urinary Tract Infections (CAUTI)

Janet Blannin
Independent Nursing Consultant, Continence Care and Clinical Nurse Advisor
to 21st Century Catheter Project

Janet has a background in urology in the acute and community settings and has been involved in continence promotion and the management of incontinence for some 30 years. She lectures both nationally and internationally and has written many papers concerning the prevention and management of incontinence. Her very first paper 'The Catheter of Choice' was written in 1980 when she was working as a research sister, showing her early interest in catheter management. Janet is a founder member of the Association for Continence Advice. She established the first nurse led clinics for incontinence in the UK and set up continence services in three Primary Care Trusts.

She is currently the Clinical Nurse Advisor for the 21st Century Catheter Project (21CCP - <http://21ccp.org/>), which was established in conjunction with the Bladder and Bowel Foundation to highlight the unresolved needs in this field of healthcare and also provide help and support to those who regularly use urinary catheters. Janet has been self-employed for the past 20 years working as an independent nursing consultant for the promotion of continence.

Pressure Ulcer Prevention

Jacqui Fletcher

**Clinical Strategy Director, Welsh Wound Innovation Centre
Fellow, National Institute for Health and Clinical
Excellence.**

**RGN, MSc Wound Healing and Tissue Repair, BSc
(Hons) Healthcare Studies (Nursing), P.G.Cert (Education),
FHEA**

Jacqui Fletcher is currently Clinical Strategy Director at the Welsh Wound Innovation Centre and has an honorary clinical contract at Cardiff and Vale NHS Trust.

Jacqui became an Honorary Fellow of the National Institute for Health and Care Excellence in 2011 and is the Clinical Editor of Wounds UK.

Prior to this post she was seconded for 4 months to Midlands and East SHA to work as Harm Free Care Lead, focussing on the ambition to Eliminate all avoidable category 2,3 and 4 pressure ulcers. She has also worked as a Principal Lecturer, University of Hertfordshire.

She is a committee member for the International Wound Infection Institute and a member of the Editorial Advisory Board for International Wounds Journal, the Journal of Wound Care and Wounds UK journal. She served as an Executive of the European Pressure Ulcer Advisory Panel from its inception in 1996 until 2010 and was instrumental in developing the new guidelines serving as a lead for a working group.

She has published widely and speaks at both national and international conferences. She is an advisor for the Royal College of Nursing and actively participates in many projects for the National Institute of Health and Care Excellence. (NICE).

VTE

Dr Edwin Borman
Medical Director, The Shrewsbury and Telford Hospitals NHS
Trust (SaTH)

Dr Borman joined SaTH as Medical Director in April 2013. Prior to this, he was Clinical Director for Anaesthetic, Critical Care and Pain Services at University Hospitals of Coventry and Warwickshire NHS Trust.

Throughout his career, he has taken a keen interest in the standards of medical practice, education, ethics, equality and diversity, representation and leadership. This has included chairing the BMA's Junior Doctors Committee and its International Committee, serving for over 20 years as a BMA Council member and for 14 years as a GMC Council member. He currently also plays a key international role as Secretary General of the European Union of Medical Specialists (UEMS) where he has a specialist interest in continuing medical education and its accreditation.

Dr Borman has been a consultant anaesthetist since 1997 and also works in this clinical capacity providing care for patients.

Hydration

Naomi Campbell

Hydration Lead Nurse, Peninsula Community Health

Naomi is Hydration Lead Nurse for Peninsula Community Health, a not-for-profit community interest company delivering NHS adult community health services in Cornwall and Isles of Scilly.

Naomi has developed a range of prototypes designed to enhance hydration care across elderly care whilst also raising awareness around the daily challenges of trying to ensure vulnerable patients have enough to drink. These include:

- a new hands free drinking aid that enables frail bedridden patients to independently sip fluids
- a tea cup which enables staff to more easily monitor how much has been consumed
- a new risk assessment tool designed to be used by any carer to systematically identify the level of support patients may need to drink or eat
- a new video training pack to raise greater awareness about dehydration

The project has attracted national interest and has been included in leading nursing journals and other conference presentations.
