

SCHT does not receive a threshold set by the Department of Health but usually has a threshold set by the local CCGs. Thresholds for 2024-25 are for no more than four cases of *Clostridium difficile* infection (CDI) detected 3 or more days after admission in the community hospitals. The zero tolerance for MRSA bacteraemia continues. *E.coli*, *Pseudomonas Aeruginosa* and *Klebsiella spp* bacteraemias also have a threshold of zero and MSSA, CPE and VRE are recorded but currently there is no threshold.
